

National Clean Cities Conference
Philadelphia, PA - May 13-16, 2001

**AFV User Program Success Story
in Albuquerque**

Peg Baca, Fleet Manager

DOE/National Nuclear Security Administration (NNSA)

Albuquerque, NM (505)845-5848 pbaca@doeal.gov

AFV User Program - Albuquerque

- Land of Enchantment Clean Cities Corridor
- Designated the 11th clean city corridor, formerly known as the Albuquerque clean cities program
- In 1999, designated as one of six clean cities in the federal AFV user program
- New partnerships formed with fuel providers, private industry, tribal, state, local and federal governments (35)

AFV User Program - Goals

- To support the expansion of alternative fuel infrastructure by concentrating large quantities of AFVs federal fleets
- To expand the number of publicly accessible alternative fuel stations
- To create an infrastructure to connect the I25 from north to south

AFV User Program - Goals

- To form partnerships with fuel providers, private industry, tribal, state, and local governments. organization that will effectively carry out the mission of the clean cities coalition
- To educate the public and private entities through marketing activities and public awareness promotional activities
- To secure legislative support of the alternative fuels program

AFV User Program - Goals

- Partner with HQ DOE and GSA AFV Program Offices to showcase the Six-Cities Program to the local Federal Executive Board

AFV User Program - Successes

- Santa Fe Trails (local transit) opened the first public CNG station in Santa Fe
- Petroglyph National Park committed to being 100% AFV (CNG)
- UNM opened a public CNG station, Apr 01
- Los Alamos scheduled to open a public access ethanol station in Jun 2001
- Awarded a \$100K SEP Grant for airport alternative fuels station, Apr 01

AFV User Program - Successes

- Presented a study on the benefits of Alternative Fuels to the NM State Legislative interim taxation and revenue committee as called for by NM State Joint Memorial 4
- NM Senate Bill 18 – Alternative Fuel Tax incentives bill was presented in the NM State Senate by Senator Dede Feldman
- Outreach AFV awareness presentations were made to local, federal, tribal agencies at conferences

AFV User Program - Successes

- US Postal Service acquired its first 97 E85 LLVs
- Meeting scheduled with the Ten Southern Native American Pueblos to present the AFV program
- On-going meetings with the Air Force and AAFES Manager to discuss conversion of an existing gas pump to E85
